

**DEEP**  
MASTERBATCHES

## Deep Plast Industries

Plastic Colour Masterbatches &  
Additive Compounds  
AN ISO 9001: 2008 Company

Combination of colourful pigment & polyolefin's based Masterbatch with various loading as per application requirement along with excellent dispersion & fastness properties as per requirement.

We use only market proven grades of pigments for processing of masterbatch.

Offer about 300 variety of grades of color master batches for various applications & shade requirement.

### Properties

- We select Organic / Inorganic easy disperse pigments & no migration along with appropriate fastness properties as per customer expectations & application too.
- Features of our master batch are excellent in dispersion properties along with Hue, strength, a clean, brightness & compatible with any types of polyolefin's & other Masterbatches also.

### Application

- Films: HM-HDPE thin gauge films, multi & monolayer films, TQPP, BOPP films, higher & lower thickness films
- Woven sacks, HDPE/PP raffia tapes, LDPE/LLDPE/PP lamination
- Sheets: PP/HIPS sheets
- Mouldings: Roto, blow, injection mouldings and thermoforming
- Pipes
- Multi / Monofilament

In addition to this our organisation accepts customise shade, cost effective along with comply of any types of regulation also.
